Professional Summary

Computer Science and Data Science student skilled in programming, databases, data analytics, and application development. Experienced in building data-driven and real-time applications through internships and hands-on projects. Passionate about solving real-world problems, improving technical skills, and learning modern technologies.

Education

MLR Institute of Technology	2023–2026
B.Tech in Computer Science and Data Science	CGPA: 7.95
Sri Sangameshwara Govt Polytechnic College	2020–2023
Diploma in Mechanical Engineering	CGPA: 9.04
Zilla Parishad High School	2019–2020
SSC (Secondary School Certificate)	GPA: 10.0

Experience

VaultofCodes – Java Programming Intern	Aug 2025 – Sep 2025
- Developed console-based Java applications and mini projects using Core Java concepts. - Applied Object-Oriented Programming principles including inheritance, polymorphism, and encapsulation. - Worked with Java collections, exception handling, and file I/O for efficient program development. - Improved debugging, problem-solving, and clean coding practices through collaborative project tasks.	
Future Interns – Data Science and Analytics Intern Certificate	Jul 2025 – Aug 2025
- Cleaned and transformed datasets containing 10,000+ records using Python and Power BI tools. - Developed 4+ KPI dashboards improving business reporting efficiency and performance monitoring. - Performed exploratory data analysis using Pandas, NumPy, and Matplotlib libraries. - Generated actionable insights through data visualization, reporting, and trend analysis techniques.	

Projects

Ai powered presentation skills Coaching For School children GitHub	2026
- Developed an AI-powered presentation analysis platform using React.js, FastAPI, PostgreSQL, and WebSockets. - Implemented Computer Vision and Speech Processing modules for posture, fluency, and eye-contact analysis. - Built real-time analytics dashboards with AI-generated feedback and performance monitoring systems. - Integrated authentication, gamification, and personalized performance tracking features.	
Gesture Interpreter GitHub	2024
- Developed a real-time gesture interpreter using Python, OpenCV, and MediaPipe technologies. - Implemented hand landmark detection and tracking algorithms to accurately identify dynamic finger movements. - Processed live webcam video streams for real-time gesture prediction with low-latency performance. - Improved human-computer interaction by enabling gesture-based communication and control functionalities.	

Technical Skills

- **Programming:** Python, SQL, Java, HTML, CSS, Javascript
- **Data Analysis & Visualization:** Power BI, Tableau, Pandas, Matplotlib
- **Tools:** Git, GitHub, Jupyter Notebook, Oracle, MySQL, Streamlit, Excel, VS Code, Anaconda
- **Soft Skills:** Problem Solving, Critical Thinking, Adaptability, Communication

Certifications

• Cloud Computing Fundamentals – Google Cloud Skills Boost	Certificate
• Core Java – Infosys Springboard	Certificate
• SQL (Basic) – HackerRank	Certificate
• Python for Data Science – IBM	Certificate
• Career Essentials in Data Analysis – Microsoft & LinkedIn	Certificate
