

MIDINTI AKSHAY KUMAR

📍 Thogarpally, Sangareddy, Telangana, 502306 📞 +91 8919883303
✉ akshaykumarmidinti@gmail.com 🔗 LinkedIn 🐙 GitHub 🌐 Portfolio

Objective

student with strong foundations in Java, OOP, and DBMS. Experienced in developing full-stack applications and software solutions through internships and academic projects. Passionate about creating secure, efficient, and scalable systems while exploring cloud and emerging technologies.

Education

MLR Institute of Technology – B.Tech, Computer Science and Data Science | (CGPA: 7.75) 2023–2026
Sri Sangameshwara Govt Polytechnic College – Diploma in Mechanical Engineering | (CGPA: 9.04) 2020–2023
Zilla Parishad High School – SSC (Secondary School Certificate) | (GPA: 10.00) 2019–2020

Experience

VaultofCodes – Java Programming Intern Aug–Sep 2025

- Gained hands-on experience in Core Java by developing console-based applications and mini projects.
- Applied Object-Oriented Programming principles in real-world scenarios.
- Worked with Java collections, exception handling, and file I/O to build efficient and reliable programs.
- Improved debugging, problem-solving, and clean coding practices while collaborating on project tasks.

Future Interns – Data Science and Analytics Intern | Link July–Aug 2025

- Performed data cleaning, transformation, and visualization using Power BI.
- Built interactive dashboards to monitor KPIs and generate actionable insights.
- Applied Python (Pandas, NumPy, Matplotlib) for exploratory data analysis.
- Strengthened client reporting and professional communication skills.

Projects

Flowing Insights – Data Visualization Platform | GitHub 2025

- Designed and deployed a data visualization platform for real-time insights.
- Created interactive dashboards using Python, Pandas, and Streamlit.
- Conducted exploratory data analysis to uncover trends and support decision-making.

Image Classification using Machine Learning | GitHub 2024

- Achieved 92% accuracy using MobileNetV2 on the CIFAR-10 dataset.
- Built an interactive Streamlit application for real-time image predictions.
- Demonstrated end-to-end model pipeline from training to deployment.

Gesture Interpreter | GitHub 2023

- Developed a tool that translates sign language gestures into real-time text.
- Engineered customizable gesture recognition for improved accessibility.
- Delivered a hardware-free, cost-effective assistive solution.

Technical Skills

- **Programming:** Java, Python, SQL, HTML, CSS, JavaScript.
- **Frameworks/Tools:** Spring Boot, Flask, Git, GitHub, Jupyter Notebook, Oracle, MySQL, Streamlit, Vscode.
- **Data Visualization:** Power BI, Tableau, Pandas, Matplotlib.
- **Soft Skills:** Problem Solving, Critical Thinking, Adaptability, Communication.

Certifications

- **Accenture Developer Virtual Internship** – Forage Certificate
- **Cloud Computing Fundamentals** - Google Cloud Skills Boost Certificate
- **Core Java** – Infosys Springboard Certificate
- **SQL (Basic)** – HackerRank Certificate
- **Introduction to Machine Learning** – NPTEL Certificate
- **Python for Data Science** – IBM Certificate
- **Career Essentials in Data Analysis** – Microsoft & LinkedIn Certificate
